

Based on CDC guidelines ([www.CDC.gov](http://www.CDC.gov)), West Virginia Medicaid through the enrolled providers will cover the administration of the H1N1 flu vaccine for its members. WV Medicaid will not pay for the H1N1 vaccine itself as it is being supplied by the federal government at no charge, but will cover the administration thereof. Effective September 1, 2009 providers may bill:

- G9141- Influenza A (H1N1) immunization administration, and
- G9142- Influenza A (H1N1) vaccine, any route of administration

These codes must be billed on the same claim in order to receive payment for the administration only.
